Mission:
To provide meaningful employment opportunities for high school students with intellectual and developmental disabilities in a supportive environment.

The Kindness Cafe, a local part time coffee shop, provides employment opportunities for the neuro diverse high school community, teaching life and job skills. Working within a local restaurant, this pop-up shop is able to provide the students with social interaction while learning supportive lifetime skills.

The Cafe aspires to become more than a pop-up, finding a permanent location with full time opportunities in order to expand the number of individuals it can employ.
